

RMB Mendon Financial Services Fund Wins Two 2017 Thomson Reuters Lipper Fund Awards

CHICAGO – Apr. 10, 2017 – [RMB Capital](#) announced that the RMB Mendon Financial Services Fund (“the Fund”) won two 2017 Thomson Reuters Lipper Fund Awards. The Fund was recognized for both its 3-year and its 5-year performance based on risk-adjusted return relative to the 22 funds in the Financial Services Funds category. This is the second year in a row that the Fund has received an award.

For more than three decades, the [Thomson Reuters Lipper Fund Awards](#) have honored funds and fund management firms that have excelled in providing consistently strong risk-adjusted three-, five-, and ten-year performance relative to their peers, based on Lipper’s proprietary performance-based methodology.

“This is a fantastic and well-deserved honor for Anton and his team,” said Richard M. Burrige, Jr., RMB Capital’s founding partner, CEO and chief investment officer.

The RMB Mendon Financial Services Fund (RMBKX), rated ★★★★★ by Morningstar® (OVERALL rating, out of 100 funds in the Financial category, based on risk-adjusted returns as of 3/31/17), is a specialty fund that seeks capital appreciation out of lesser-known opportunities, primarily among small-cap financial services institutions, aiming to benefit from consolidation in the financial sector. The Fund is sub-advised by Mendon Capital Advisors Corp. (“Mendon”), whose president and chief investment officer, Anton Schutz, serves as portfolio manager, as he has since the Fund’s inception. Schutz seeks to identify companies that are not widely followed, generate strong cash flow, and have assets that are not reflected in current stock prices. [The Fund instituted a “soft close” on March 15, 2017](#), limiting the availability of the Fund to new investors.

The Thomson Reuters Lipper Fund Awards, granted annually, highlight funds and fund companies that have excelled in delivering consistently strong risk-adjusted performance relative to their peers. The Lipper Fund Awards are based on the Lipper Leader for Consistent Return rating, which is a risk-adjusted performance measure calculated over 36, 60 and 120 months. The fund with the highest Lipper Leader for Consistent Return (Effective Return) value in each eligible classification wins the Lipper Fund Award. For more information, see www.lipperfundawards.com.

The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete, or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating™ based on a Risk-Adjusted Total Return measure that accounts for variation in a fund's monthly performance (including the effects of sales charges, loads and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within this scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its three-, five-, and ten-year (if applicable) Morningstar Rating metrics. The RMB Mendon Financial Services Fund Class A was rated as of 3/31/2017 against the following number of U.S. domiciled financial funds over the following time periods: 100 funds in the last three years, 96 funds in the last 5 years, and 72 funds in the last 10 years. With respect to these financial funds, RMB Mendon Financial Services Fund Class A received a Morningstar rating of 5, 5, and 5 stars for the 3, 5, and 10 year periods, respectively.

Past performance is not a guarantee of future results. Investment return and principal value will fluctuate with market conditions and an investor's shares, when redeemed, may be worth more or less than their original cost.

Owning mutual fund shares involves investment risk, including possible loss of principal. There are special risks associated with sector funds, which primarily limit their investments to companies in specific industries. These types of fund may be susceptible to factors affecting these industries, and each fund's value may fluctuate more than a fund that invests in a wider range of industries.
