Fund Overview	\$160.0 Net Assets (millions)								

RMB Capital Management, LLC (the "Adviser" or "RMB") has contractually agreed to reduce its compensation due from and/or assume expenses of the Fund to the extent necessary to ensure that the Fund's operating expenses (excluding interest, taxes, brokerage commissions and other transaction costs, expenditures that are capitalized in accordance with generally accepted accounting principles, acquired fund fees and expenses, short sale dividends, and extraordinary expenses not incurred in the ordinary course of business) do not exceed 1.15% of the average daily net assets of the Fund's Class I shares (the "Expense Cap"). The Expense Cap is in effect until May 1, 2019 and cannot be terminated prior thereto without the approval of the Fund's board of Trustees. To the extent the Adviser waives its compensation and/or absorbs expenses to satisfy the Expense Cap, it may seek repayment by the Fund of a portion or all of such amounts at any time within three fiscal years after the date on which such amounts were waived or absorbed, subject to the expense caps in effect as of the date (i) such amounts were waived or absorbed and (ii) of the repayment.

Investment Philosophy and Approach

The Fund seeks capital appreciation and pursues its goal by investing in at least three different countries and at least 40% of its total assets in securities of non-U.S. issuers organized or having their principal place of business outside the U.S. or doing a substantial amount (more than 50%) of business outside the U.S. The Fund's non-U.S. investments will be primarily in developed markets, but the Fund may invest in emerging markets. There are no geographic limits on the Fund's non-U.S. investments.

The Fund may invest in companies of any size and targets a balanced approach with allocations across the market capitalization spectrum. We use a fundamental, bottom up approach to identify what it believes are quality companies, as evidenced by the durability of the company's business model, the company's financial strength, the presence of long-term growth, and value-accretive management teams.

- Seek companies with strong management, sound financial practices, and a defensible business niche
- Focus on firms with sustainable growth in earnings, revenue, and cash flow
- Identify undervalued equities that are temporarily mispriced relative to their long-term potential and where their stock prices reflect reasonable valuations
